GLOSSARY

Annual Budget – Prescribed in section 16 of the MFMA - the formal means by which a Municipality approve official budget for the next three years.

Adjustment Budget – Prescribed in section 28 of the MFMA – the formal means by which a Municipality may revise its annual budget during the year.

Allocations (Transfers – see DORA) – Money received from Provincial or National Government.

Budget Related Policy(ies) – Policies of a Municipality affecting or affected by the budget, examples include Tariff Policy, Rates Policy, Credit Control and Debt Collection Policies.

Capital Expenditure - Spending on assets such as land, buildings and machinery. Any capital expenditure must be reflected as an asset on the Municipality's balance sheet and must be included in the asset register.

Cash Flow Statement – A statement showing when actual cash will be received and spent by the Municipality. Payments do not always coincide with budgeted expenditure timings – for example, when an invoice is received by the Municipality it is shown as expenditure in the month it is received, even though it may not be paid in the same period.

DORA – Division of Revenue Act. Annual legislation that shows the total allocations made by national to provincial and local government (see Allocations / Transfers).

Equitable Share – A general grant paid to municipalities. It is predominantly targeted to help with free basic services and to compensate loss of RSC levies.

Fruitless and Wasteful Expenditure – Expenditure that was made in vain and would/should have been avoided had reasonable care been exercised.

GFS – Government Finance Statistics. An internationally recognised classification system that facilitates like for like comparison between municipalities.

GRAP – Generally Recognised Accounting Practice. The new standard for municipal accounting.

IDP – Integrated Development Plan. The main strategic planning document of the Municipality.

MBRR – Local Government: Municipal Finance Management Act (56/2003): Municipal Budget and Reporting Regulations dated April 2009.

MFMA – The Municipal Finance Management Act – Act No. 56 of 2003. The principle piece of legislation relating to municipal financial management.

MTREF – Medium Term Revenue and Expenditure Framework. A medium-term financial plan, usually 3 years, based on a fixed first year and indicative further two years budget allocations.

Also includes details of the previous and current years' financial position.

Operating Expenditure –The day to day expenses of the Municipality such as salaries and wages.

Rates – Local Government tax based on the assessed value of a property. To determine the rates payable, the assessed ratable value is multiplied by the rate in the Rand.

SDBIP – Service Delivery and Budget Implementation Plan. A detailed plan comprising quarterly performance targets and monthly budgeted estimates.

Strategic Objectives – The main priorities of the Municipality as set out in the IDP. Budgeted spending must contribute towards the achievement of the strategic objectives.

Unauthorized Expenditure – Generally, spending without, or in excess of, an Approved Budget.

Virement – A transfer of funds.

Virement Policy - The policy that sets out the rules for budget transfers. Virements are normally allowed within a vote. Transfers between votes must be agreed by Council through an Adjustments Budget.

Vote – One of the main segments into which a budget is divided. In Eden District this means the different GFS classification the budget is divided.

DLG&HS – Department of Local Government and Human Settlements

MIG – Municipal Infrastructure Grant

WSIG – Water Services Infrastructure Grant

FMG – Financial Management Grant

MSIG – Municipal Systems Improvement Grant

Legislative Framework

This report has been prepared in terms of the following enabling legislation:

The Municipal Finance Management Act – Act No. 56 of 2003

Section 71: Monthly Budget Statements

Local Government: Municipal Finance Management Act (56/2003): Municipal budget and reporting regulations

PART 1

1. IN-YEAR REPORTING

1.1 Executive Mayor's Report

1.1.1 Implementation of the Budget in line with the SDBIP

The municipality strives to ensure alignment of the budget to the Service Delivery and Budget Implementation plan (SDBIP) and to ensure that all objectives are costed. Given the fact that financial resources are never sufficient to address all the needs identified in the departmental wish lists and the service delivery needs as identified by our communities, the process of prioritization of needs had to be strictly done.

Reasonable strides have been done by the municipality to cut costs and to implement a budget that only addresses the planned objectives. There have been serious cuts on non-priority areas and luxuries to afford the municipality to bridge the gap between the needs of our communities and the available resources.

All the objectives set in the SDBIP are aligned to the budget and even though not fully funded.

1.1.2 Service Level Agreements with the Local Municipalities

Due to financial limitations of the District Municipality, the transfers made to the local municipalities, i.e. the FBS Grant (Naledi, Mamusa and Lekwa Teemane) had to be stopped. However other support initiatives of the District Municipality to the local municipalities such as Internal Audit Support, Risk Management Support, IT Support and many other administrative supports are still being provided to the local municipalities.

The Service Level Agreements between Water Service Authority and the Water Services Providers have been entered and are in place with few municipalities, even though not fully budgeted for due to financial constraints. However, the District Municipality as a Water Service Authority is assisting Lekwa- Teemane and Mamusa Local Municipality with water tankering and this is budgeted from

the operating income. The existence of the District Municipality is to support the local municipalities in as far as the district municipality can afford.

1.1.3 A Summary of Financial Problems or Risks facing the Municipality

The District Municipality's financial situation has deteriorated over the years. The dependence on the grant funding is still continuing for the district, and the district has not yet identified any additional revenue sources. The cash flow of the district is getting lower and lower to an extent where some months conclude in a negative cash flow. The municipality does not have reserves.

The major risk that the district is facing is, the aging infrastructure that is depreciating at a high rate and that depreciation is not cash backed, and this is a high risk for the district municipality because the district would have to replace these infrastructural assets when they become damaged and fully used and this exercise has a serious financial bearing in the long run for the municipality.

The District Municipality had to impair the R150m that was invested with VBS Mutual Bank. R100m was for RBIG, R29m MIG and R21m from our own revenue. This has a negative effect on projects that are funded by conditional grants because some of the projects had to be pushed or moved to the outer financial years.

The fact that the district municipality does not have other revenue sources other than the conditional grants also poses a threat and the risk of going concern for the municipality. High expenditure trends on operating costs must be monitored and curbed as these will affect the service delivery in the long run.

1.2 Executive Summary

1.2.1 Introduction

Section 71(1) of the Municipal Finance Management Act (MFMA) requires from the Municipal Manager, as Accounting Officer of the Municipality, to submit a report in a prescribed format to the Mayor within 10 working days after the end of each month on the state of the municipality's budget for that month and for the financial year up to the end of that month.

These figures are presented in terms of section 71 of the MFMA. The information is presented for the month and year to date ending 30 September 2019.

1.2.2 Consolidated Overview

1.2.2.1 Against Annual Budget (original)

- **Revenue by source**

The municipality has got no other sources of revenue other than conditional grants, interest earned and revenue from the sale of bid documents which is very minimal. Therefore, this means that the municipality is heavily grant dependant. The grants received from National Treasury need to be strictly implemented as they are for specific purposes. These grants are received by the municipality in three tranches for the financial year. **Municipality will not receive the Municipal Infrastructure Grant (MIG) as it will be administered from the Provincial and National CoGTA**

- **Capital Expenditure**

The capital budget for the financial year amounts to **R360,755m**. This amount is made up of the Municipal Infrastructure Grant (MIG) **R131,473m**. Regional Bulk Water Infrastructure Grant (RBIG) **R121,693m**, Water Services Infrastructure Grant (WSIG) **R105,000m** and Rural Roads Assets Management Services Grant (RRAMS) **R2,589m**. As at the end of September 2019 expenditure incurred on grants was **R49m** all of this is accrued expenditure.

- **Material variances from SDBIP**

Variances and deficiencies will be explained in terms of the SDBIP and will be reported on by the Performance Management Unit during the quarterly performance reviews.

- **Remedial or corrective steps**

All Departmental Heads must monitor monthly income and expenditure reports and ensure spending is within budget that was approved by Council on the 30 May 2019. It is the responsibility of each Departmental Head to prevent any unauthorised expenditure by staying within the budgetary limits and also by ensuring that the money is spent on only the items that are budgeted for. Should such unauthorised expenditure occur, the relevant departmental head will be held responsible for that unauthorised expenditure.

- **Conclusion**

Detailed analysis of the municipal performance for the year to date ending 30 September 2019 will be presented under the different sections of the report.

The municipality must implement various cost saving measures and other activities to ensure that the municipal budget is implemented according to the mandate of Council.

This above table reflects on the operating budget (Financial Performance) per the standard classifications which is the Government Finance Statistics Functions and Sub-function. These are used by National Treasury to assist in the compilation of national and international accounts for

comparison purposes, regardless of the unique organisational structures being used by the different institutions.

The main functions are Governance and Administration, Community and Public Safety, Economic and Environmental Services and Trading services and others. It is for this reason that Financial Performance is reported in standard classification, Table C2, and by municipal vote, Table C3 as prescribed by the MBRR.

Operating Expenditure

The operating expenditure for the month of September 2019 is mainly employee related costs and remuneration of councillors. The Budget that council approved for 2019/20 MTREF was unfunded and therefore National Treasury delayed the funding until Council convene to take 12 resolutions. One of the resolutions was to come up with a financial plan on how to deal with the deficit

PART 2

2. OTHER SUPPORTING INFORMATION

2.1 Debtors Age Analysis

The age analysis for debtors only includes those amounts which are current or past due. It does not include amounts which are due in future. The municipality does not have consumers who pay rates

and taxes, but rather the debtors emanate from Department of Transport for the Rental of Municipal Building.

DC39 Dr Ruth Segomotsi Mompati - Supporting Table SC3 Monthly Budget Statement - aged debtors - M03 September

Total By Customer Group	2600	-	-	-	7.924	-	-	-	-	-	7.924	7.924	-	-

The total outstanding debtors as at the end of September 2019 amounted to **R7,924m**

2.2 Creditors Analysis

The municipality's creditors as at the 31 September 2019 amounted to **R203m**. This amount is made up of various creditors which include amongst others the retentions withheld on various capital projects and Sedibeng Water outstanding invoices of **R269 658M**

2.2.1 The DBSA Loan

The municipality is also servicing a loan from the DBSA, this loan was taken-on since 2013-2014, thereafter a Restructured Loan Agreement was entered into between the municipality and the DBSA whereby the DBSA agreed to cut the accumulated interest on the loan provided the municipality commits to adhere to the repayment schedules, and as at the end of September the remaining balance was at **R32,238m**. The monthly repayment towards this has been provided in the budget at R900 000 as per the repayment agreement.

2.3 Cash and Cash Equivalents

The cash and cash equivalents consist of the petty cash amount up to R2,000 the primary bank account held at FNB and the short-term investment accounts. As at the end of September 2019, the primary bank account had a cash balance of **R4,557m**.

2.4 Investment Portfolio

Regulation 9 of the Investment Regulations requires that:

The Accounting Officer of a municipality or municipal entity must within 10 working days of the end of each month as part of the S71 report required by the Act, submit to the Mayor of the municipality or the board of directors of a municipal entity a report describing in accordance with the GRAP the investment portfolio of the municipality or the municipal entity as at the end of the month. Regulation 9 (1) further requires that the report must contain at least:

- i) The market value of each investment at the beginning of each period;
- ii) Any changes to the investment portfolio during the reporting period;
- iii) The market value of each and every investment at the end of the period;

These invested funds are those funds for the capital projects that have not yet been implemented. The interest raised from these short-term investments is already included in the budget at an estimate.

2.5 **Grants Receipts** As indicated above, the municipality is almost 100% grant dependent. The following grants have been budgeted for.

2.6 Grants Expenditure

The Municipality did not receive any capital grants during the month of September 2019.

Repairs and maintenance

There was no expenditure incurred for repairs and maintenance. This repairs and maintenance of minor assets and not of the infrastructural assets.

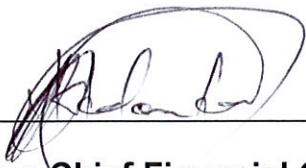

3. Conclusion

It is still very early in the financial year to can fully analyze the financial performance of the municipality as this is the first month of the new financial year. The delay in releasing grants for the municipality had a huge impact on service delivery and payments to service provider.

4. Recommendations

It is recommended that: -

- Managers should ensure that they implement the budget in line with the SDBIP and that only items that are budgeted for should be considered.
- All procurement plans must be linked to the departmental SDBIP
- That management continue to implement cost containment measures as per circular 82 and Municipal Cost Containment Regulations
- All managers that have to submit their inputs for the preparation of the Section 71 Reports must do so timeously so that the submission of the Section 71 Report must be done on time.

Acting Chief Financial Officer

03 December 2019

DR RUTH S. MOMPATI DISTRICT MUNICIPALITY

MUNICIPAL MANAGER'S QUALITY CERTIFICATE

I **Jerry Mononela**, Municipal Manager of Dr Ruth S Mompati District Municipality, hereby certify that this report and the supporting documentation are prepared in terms of S71 of the MFMA and in line with the in-year monitoring and reporting requirements of the Municipal Budget and Reporting Regulations (MBRR).

Print Name: Mr.J L Mononela

Signature: _____

A handwritten signature in black ink, appearing to be 'J L Mononela', written over a horizontal line.

Date : 03 December 2019

ACKNOWLEDGEMENT OF RECEIPT BY THE EXECUTIVE MAYOR

(or by any person receiving this report on behalf of the Executive Mayor)

I, **Boitumelo L Mahlangu**, the Executive Mayor of Dr Ruth Segomotsi Mompati receive this report in line with the S71(1) of the MFMA.

Signature  _____

Date: 03 December 2019
